

# LEHIGH VALLEY PLASTICS

We Shape The Industry

## Food & Beverage

Plastics are widely used in the Food Processing Industry. FDA approved materials play a critical role in the transportation, packaging and cooking of foods. Materials like Acetal, Delrin, UHMW, Ertalylte®, and Radel® have a unique combination of low moisture absorption, chemical and abrasion resistance, and non-staining characteristics which are desirable in the CIP (cleaning-in-place) process.

We have materials that are FDA approved and still offer the following advantages:

- ◆ Abrasion and Chemical Protection of equipment
- ◆ Safe for Cutting Surfaces
- ◆ Noise Reduction
- ◆ Reduction in Wear and Friction applications
- ◆ Anti-microbial

## Food Processing Applications

- ◆ Sprockets
- ◆ Rollers
- ◆ Trough Liners
- ◆ Slide Rails
- ◆ Pulleys
- ◆ Diverters
- ◆ Filling Spools
- ◆ Augers
- ◆ Table Tops
- ◆ Hopper Liners
- ◆ Mixer Paddles
- ◆ Bearings/Brushings
- ◆ Chutes
